# Our Mission

To deliver premium web services at exceptional speed by combining the deep expertise gained from building and managing large-scale web applications at OMINIX with the transformative power of the latest AI technologies.

## Uninterrupted Product Delivery

We build your product with **utmost quality** while you keep the hiring on until getting the right full-time joiner.

## No long-term Contracts

A backup to your tech team for their fractional needs.

## Lifetime Support

Handover to your new full-time hires along with required KTs and **lifetime assistance**.

# Some Of Our Work

**GO-TO-MARKET PROJECTS HAVE A LOT OF MOVING PARTS**

Get fractional leadership that plans, executes & coaches for all of them

**STEP BY STEP**

- Follow a step-by-step process to avoid missing critical activities when launching something new
- Launch confidently with thorough research, meticulous planning, and seamless execution every time
- Enhance your success with expert executive coaching to ensure everything is done right, from start to finish

**A-Z FLEXIBILITY**

- Our GTM process is both comprehensive and adaptable to your needs
- Leverage your existing assets, like branding strategies or competitive analyses, to maximize efficiency
- We integrate what you've already done, ensuring nothing is wasted & get to market quickly and start selling to customers without delay

**REDESIGN, REBUILD, AND REIMAGINE**

## ReCode

Join ACM's brand new reverse engineering hackathon where you'll analyze real-world applications and recreate them better.

**CyberCypher**

## 36 Hours Of Pure Chaos

CyberCypher is two rounds of 18 hours filled with pure creation, competition, and chaos. The first round tests your concept on Discord. The final showdown? Offline at MPSTME, Mumbai. No spectators. Only builders.

## Featured Projects

- Cartoon App (Prototype)**  
A modern cartoon-creating app built with Next.js 14, TypeScript, TailwindCSS, and a serverless Neon PostgreSQL backend.  
[View Project](#)
- F1 SemiColon Type Racing**  
A real-time multiplayer typing game where your typing speed powers a car around the track, built for the ACM MPSTME introductory event.  
[View Project](#)
- PFE Ticket Registration**  
End-to-end event platform with real-time payments, automated QR ticketing, and admin verification. Features seamless registration and attendance tracking.

# What Makes Us Different

A promise of  
Speed,  
Quality &  
Commitment

Our focus is measurable impact, not billable hours.

Problem Solvers,  
not ordinary IT  
Consultants

An extension to your  
team, not just an  
outsourcing agency

MVP in 4  
Weeks
